Trying to answer unanswered questions - Kenya

Television sets worldwide have been awash with heart-wrenching footage of the carnage happening in various parts of Kenya following the presidential elections there in December. Viewers have so many unanswered questions of the “Why?” and “What?” of it all. A U.K. based charity and its film and TV production arm is has just released a DVD film that attempts to answer some of those questions. The documentary film “Transformation in Kenya” was filmed a matter of weeks before the fateful elections and interviews a number of national church leaders and citizens about the climate in the country. Cameras followed a series of leadership meetings held in Nairobi including its setting up and aftermath. Many of the comments shared in the film reveal the simmering differences across the nation at the time and the potential solution to national unity.

The film is part of HFC International’s “Into All the World” series of productions filmed on almost every continent. The award nominated series features dramatic footage from such locations as Hong Kong, Israel, Brazil and many other places around the globe. Upcoming productions are currently being planned for in China, Nepal, West Africa and other far flung locations. Currently “Into All the World” is being broadcast throughout the Middle East on Sat 7, on The Australian Christian Channel, the Alfa and Omega Network (Romania and worldwide), Premier TV (U.K.), Shine TV (New Zealand), U Channel (Indonesia), the Family 7 Network (Holland) and IFBN (Israel).
