

PRESS RELEASE

For release 13 September 2006

Luis Palau on “The Church after 11 September”

International Evangelist “to the Nations” and best-selling author Dr. Luis Palau is currently visiting the UK for meetings with various church and ministry leaders and groups. During this time he was interviewed for the “Principles of Leadership” film series of Harvest Fields Commissioning International and AGAPE:Live! Leadership and Evangelistic Events.

When asked “How has the Church changed in the five years since 11 September 2001?” Dr. Palau responded, “We are aware that one-fifth of the world is quite alarmed at the Gospel of Jesus Christ and that we have to quickly share the Gospel with that 20% in a creative way, in a humble way and get ready and willing to pay whatever price to share the Good News. I think, generally, around the world... many Christian have become aware that the world could blow up again into another world war. Nobody wants it. We all speak against it but the idea of a clash of civilisations is definitely in the air.”

HFC International and AGAPE:Live! Events have been producing the popular series “Principles of Leadership” for over three years with guests such as Jackie Pullinger (St. Stephen’s - Hong Kong), Lord George Carey, Nicky Gumbel (ALPHA & Holy Trinity Brompton), Loren Cunningham (Founder - Youth with a Mission), George Verwer (Founder - Operation Mobilisation), Andrew White (Foundation for Reconciliation in the Middle East) and Baroness Caroline Cox (Christian Solidarity International).

AGAPE:Live! Events hold Church Leadership Seminars and Evangelistic Events in 31 countries worldwide as a gift to a city and nation. It is an outreach of Harvest Fields Commissioning International, a U.K. Registered Charity. Its websites are at: <http://www.agapelive.net> and <http://www.hfci.net>.
